

Electronic Cigarettes Policy

Intent

CPC Logistics Canada is committed to the health and safety of all its employees. In the interest of promoting a safe and healthy work environment, CPC Logistics Canada has adopted this zero-tolerance policy to comply with provincial laws and support our smoke-free workplace.

Definitions

Electronic cigarettes (e-cigarettes): An electronic inhaler made of stainless steel or plastic designed to simulate or act as a substitute for smoking cigarettes or cannabis. This term also includes vaporizers, vapes, or vapour pens.

Guidelines

To ensure the health and safety of our entire staff and be mindful of the staff members who choose not to smoke, CPC Logistics Canada will not tolerate the use of e-cigarettes or similar devices in non-designated smoking areas.

Designated Smoking Areas

- (Name, title, appropriate authority) and human resources will maintain a list of designated outdoor smoking areas with any associated restrictions, and will post this list in visible locations, such as entrances and exits.
- Designated outdoor locations will not be located within (X metres: consult all applicable legislation for exact distances) of entrances, exits, mechanically operated windows, or intake vents.
- Smoking of e-cigarettes will be tolerated only in designated areas.

Scheduled Breaks

- CPC Logistics Canada employees may smoke in designated smoking areas during regularly scheduled breaks.
- The company provides employees who work a regular eight-hour workday with regularly scheduled breaks according to legislative requirements.
- Employees who take unscheduled breaks to smoke may be subject to disciplinary action.

Cannabis Products

Content is provided for HR Downloads Inc. clients only. HR Downloads Inc. assumes no legal liability for the enforcement or effectiveness of its content. The onus is on clients to review and revise content to ensure it is reflective of their organization and applicable legal obligations. Consider consulting legal counsel before implementing new policies or procedures at your organization.

Cannabis, hemp, and THC concentrates for recreational purposes may be available to use legally in the form of liquids or oils which can be consumed in e-cigarettes. While electronic cigarettes and similar devices are permitted in designated smoking areas, consuming cannabis on company property during work hours is strictly prohibited unless approved for medical use.

Approval for Medical Use

Any employee who needs to consume for medical purposes a substance or drug that might impair the employee during work hours must provide the company with appropriate medical documentation **before** consuming any drug, cannabis, oil, or other derivative at or around the workplace.

Compliance

Employees who are not approved for medical cannabis consumption and who deliberately disguise cannabis oils in the form of electronic cigarettes for consumption during work hours or on company property may be subject to disciplinary action.

Acknowledgment and Agreement

I, (Employee Name), acknowledge that I have read and understand the Electronic Cigarettes Policy of CPC Logistics Canada. Further, I agree to adhere to this policy and will ensure that employees working under my direction adhere to this policy. I understand that if I violate the rules or procedures outlined in this policy, I may face disciplinary action up to and including termination of employment.
